EOL (End-Of-Life) – Management & Product Change Notification Management

Stage 1: KNOWLEDGE OF EOL (or PCN)

Internal Product Review

Stage 4: LAST PRODUCTION, STOCK SALES and EQUIVALENTS

If a last buy order can be accepted we organize the last production, otherwise we sell our stock.

Propose equivalent solutions to customers.

Then EOL or PCN is completed

Obsolescence

(EOL) – Management

and Product Change (PCN) Management

for defined critical components

Stage 2: PRE-NOTIFICATION

Internal Review of components, present stock, running orders, new orders, involved customers and market replacement possibilities

Stage 3: EOL or PCN NOTIFICATION

Release our formal external EOL/PCN notification to our active customers from the past 3 years
