Statement - Usage of Conflict Minerals

Dear Ladies and Gentlemen,

Display Elektronik GmbH is aware of its social responsibility with regard to the environment, safety, health and human rights and understands that its behaviour in business dealings has an impact on society and the environment.

In order to guarantee a peaceful, fair and sustainable use of our resources, we take the following position:

Regulation (EU) 2017/821

Since we do not exceed the annual quantity thresholds for minerals or metals (tin, tantalum, tungsten, gold and their derivatives) set out in Appendix I, we are not affected by this regulation.

Dodd-Frank-Act, Section 1502

As far as we are currently aware, the products we deliver contain neither directly nor indirectly conflict minerals from mines that are financed or promoted by armed groups in the Democratic Republic of the Congo or in neighboring countries.

The Dodd-Frank Act specifically relates to tin, tantalum, tungsten, gold and their derivatives, mined in the above mentioned sources.

Upon separate request we can check the extensive issue of a comprehensive conflict minerals report template (CMRT), especially for your product.

With best regards

Display Elektronik GmbH
