RoHS Statement

Dear Ladies and Gentlemen,

herewith we confirm that all our products which are supplied by us, are at the time of production according each valid Regulations 2011/65/EU (RoHS II) and (EU) 2015/863 (RoHS III) of the European parliament and council to restrict the use of hazardous substances in electrical and electronic equipment.

In order to ensure this, we have written agreements with our manufacturing partners referring the RoHS compliance of all products supplied to us. These confirmations are reviewed on a regular basis, once a year on additions to the candidate list, as well as on amendments to the regulation itself.

If we become aware that such a substance in a notifiable concentration is included in our products, we will of course inform the affected customers immediately.

With best regards

Display Elektronik GmbH
